

site may not be allocated to another site. If the local board of trustees of a community college determines that new construction funds allocated to a specific site are not needed at that site, the board may request that the State Board of Community Colleges reallocate those funds for new construction at another site of the community college. Except in the case of Mayland Community College, the funds may not be reallocated from a site outside the main campus county to a site within the main campus county. If the State Board of Community Colleges determines that the funds are not needed for new construction at the site for which they were originally allocated, it shall approve the reallocation to the other site and shall substitute the proposed facility at the other site in the Community Colleges System Office's application to the State Treasurer pursuant to G.S. 116D-43.

Each community college shall submit to the State Board of Community Colleges a statement (i) proposing the capital facilities to be financed with the proceeds of community college general obligation bonds allocated to that community college, (ii) certifying that the proposed site is included in the allocations in this section or is a substitute facility at another site because the funds are not needed for new construction at the site for which they are allocated in this section, (iii) certifying that the community college is prepared to proceed with the construction, acquisition, or improvement of the proposed capital facilities, and (iv) demonstrating that the applicable matching requirements have been or will be met.

Upon receipt by the State Board of Community Colleges of the information set forth above, the Board shall add the proposed capital facilities to the next application of the Community Colleges System Office to the State Treasurer to issue bonds pursuant to G.S. 116D-43.

The board of trustees of an individual community college may use funds allocated for new construction either for new construction or for repair and renovations.
